

Osprey Design Experience Weekly Memo

TEAM NAME: Green Ellipsis

DATE: 09/29/23

ATTACHMENTS: N/A

WORK COMPLETED:

- Version 2.0 of the problem statement has been created, this one focusing more on the splicing process
- Getting hands-on with the pultrusion process and learning how to start bottles for filament production.

WORK TO BE COMPLETED NEXT WEEK:

- Mid semester presentation detailing our current place in the project
- Continue research on mechanical joint methods such as friction welding
- Create more strips for experimentation

Author: Jacob
